## ROBERTS IS CHECKED.

He Finds Railroad Track Wrecked and a Bridge Destroyed.

## SUPPLIES DELAYED.

Roberts' Outposts Are Twelve Miles North of Smaldeel—Brabant and Rundle Join—Plot to Assassinate Roberts.

London, May 8.—The following dispatch from General Roberts has been received at the war office:

"Smaldeel, May 8.—The railway from Brandfort to this place has been considerably damaged and the bridge over the Vet river is hopelessly damaged. This delays supplies coming up. Every few yards charges of rackarock have been laid under the rails. This might have created a loss of life, but was fortunately discovered by a West Australian infantryman. Windberg has been occupied by the Highlanders brigade."

In spite of these wrecked railroads the British advance goes on steadily. Gen. Roberts' outposts are apparently about 12 miles north of Smaldeel. General Brabant joined General Rundle at Thabanchu whence they are moving forward. The country is all quiet in that direction.

Reconnoissances made by Rundle of the Boer's recent positions at Thabanchu resulted in their being pronounced impregnable and their evacuation reported to have been due to receipt of an urgent request from President Steyn.

The Boers are said to be moving northward, but their immediate destination is not known.

The whereabouts of the British cavalry under General French is still a mystery, while General Kelly-Kenny's and Gen. Chermide's divisions are also unaccounted for.

A dispatch from Cape Town says: "Roberts' phenomenal advance is not only utterly demoralizing the Boers, but is striking terror into the rebel colonists. The relief of Mafeking is expected at any moment."

The Cape Town correspondent is a little optimistic as regards Mafeking, judging from direct dispatches the British forces south of Mafeking are still nearly 200 miles from their objective, while the latest advices from Mafeking itself dated April 29, show little amelioration in the situation there.

The dispatch says:

"With the exception of a little rifle firing at the outlying trenches, everything is quiet. The slight epidemic of typhoid is abating as the result of medical precaution. The enemy's artillery, with the exception of two 5-pounders, apparently have been withdrawn. It was learned on April 24, the enemy intended to attack, and the entire garrison stood to its arms. When day broke Colonel Baden-Powell took up a position on the lookout and the heavy rattle of musketry and boom of four guns convinced us the attack was about to occur, but it became apparent the Boer officers could not persuade the men to advance. Through glasses we saw officer vainly urging the infantry forward. Enemy reformed and retired. Our men fired a shot in the hope of inducing the enemy to come to closer quarters.

"Native distress has been alleviated. Many of them slipping through the line. Men of the garrison forego their sugar ration for the benefit of the women and children. After the bombardment of April 27 all was comparatively quiet."

## TRANSVAAL LEGISLATURE.

Kruger Opens the Session and With Feeling Referred to Joubert.

Pretoria, May 7.—The official closing of the 1899 Volksraad, which broke up unofficially in September last, took place today. The vacant seats of Generals Joubert and Deceek and others were filled with flowers. The hall was crowded, a large number of ladies being present. In the prayer of the chaplain his allusion to General Joubert moved many to tears. After the prayer the read adjourned to the afternoon, when the session of 1900 was inaugurated, the ceremonies being accompanied by the customary salute.

President Kruger arrived in the state carriage with the usual escort. All diplomats and foreign attaches, including General Gourkof, the Russian attaché, were present. The raadzaal was crowded to the fullest capacity and the scene was most impressive. President Kruger in his speech opening the session alluded feelingly to the vacancies. Referring to General Joubert, he said:

"Future generations will be able to judge the work of the deceased, whose demeanor inspired the enemy with respect and whose humane and brave conduct gave fame and importance to the state among civilized nations."

The president spoke of the Free State with praise and said the Transvaal held pleasant relations with all countries except Great Britain.

He said the Transvaal had money enough on hand for all war purposes.

The proceedings terminated with the unusually impressive speeches and prayers.

Fifty out of the total sixty legislators were present, several of them still suffering from wounds.

## Plumer Heard From.

Lorenzo, Marquez, May 6.—A dispatch received here from Colonel Plumer's camp bearing date of April 26, states the Boers around Mafeking have been gradually reinforced and their strength is estimated at 3000. Colonel Plumer has succeeded in communicating with Mafeking by means of carrier pigeons, and is endeavoring to communicate with the southern relief column.

## American Negro in Trouble.

London, May 8.—A special dispatch from Lorenzo Marquez says a colored American citizen named Richards, who was committed for trial by special court on the charge of murder in connection with the explosion at the Beghies works, is alleged to have said he was offered £5000 to blow up the foundry.

## Plot to Kill Roberts.

London, May 8.—The Standard hears information has been officially received of a plot to assassinate Lord Roberts but he has been warned and telegrams are now passing between the cape authorities, Lord Roberts and home authorities on the subject.

## STRIKE AT ST. LOUIS.

Nearly all Transit Company Line Tied up and Some Cars Stopped.

St. Louis, May 8.—With the exception of the Park avenue division of the Lindell line, which is being run by non-union men, all the lines comprising the St. Louis Transit company are tied up in consequence of the action of the employees whose demands have been refused. Several points along Park avenue lines the cars were assailed by mobs with stones and other missiles. About 3200 to 3500 men employed by the company are out.

The strikers compelled the suburban line, the only line in the city not part of St. Louis Transit Company's system, to cease running. The motormen and conductors on the line pulled out their cars at De Hadamont and in down town districts the cars were stopped.

A motorman was badly injured by a brick which struck him in the face. He left his car and ran into a saloon for protection.

Almost at the same time a young woman who was a passenger in the car was struck on the head and badly injured by a stone that crashed through the car window.

John Kehring, a 16-year old boy, who was in the crowd on Park avenue, was shot and seriously wounded by Conductor George McClellan in charge of a car on Park avenue division. The boy was removed to the city hospital and McClellan arrested.

## THE RACE PROBLEM.

Session of the Conference Opened in the City of Montgomery.

Montgomery, Ala., May 8.—Many of the prominent guests of the city who are here to attend the race conference this week have arrived. The exercises of the conference begun at 8 o'clock tonight, when Mayor Joseph opened the gates of the city and welcomed the visitors. Governor Johnston welcomed them on behalf of the state. The delivery of addresses, of which there will be a large number before the conference, will commence at once.

The first formal speech was made by J. B. Gaston, the temporary chairman. He spoke on "The Ideas and History of the Conference." Mr. Gaston in conclusion presented Hon. Hilary A. Herbert, ex-secretary of the navy, who was made permanent chairman and spoke on "Problems That Present Themselves."

## Flag Hoisted Over Tutuila.

Auckland, N. Z., May 8.—Advices received from Samoa announce the American flag has been hoisted over the island of Tutuila amid great native rejoicing and the chiefs have made a formal cession of the island to the United States. The inhabitants of Manua, it is announced, request the formal hoisting of the American flag over that island which is likewise to be ceded. The natives of the island will rule themselves under governors appointed by the commandant of the naval station. Quiet prevails in German Samoa.

## His Request Granted.

Victoria, May 8.—News has been brought by the Danube of a peculiar case at Juneau. Martin Sivert shot and killed Steve Fredigo. He then shot a man named Christianson, but was captured. He then requested that he be hanged, and as there was no way of caring for him his request was complied with. Sivert signed a statement saying he had received justice at the hands of the men there. The motive of Sivert was robbery. The case occurred at Lituya bay where all the parties concerned were in the employ of a gold mining company.

## King Otto's Health Gone.

Berlin, May 8.—The health of the deposed King Otto of Bavaria is completely broken and the end is expected soon.

Roberts is pursuing the British  
with five to one in numbers, yet  
before Pretoria is his there will be  
more carnage and death.

Gold in Johnson county, cop-  
per in Burnet, coal in Wood  
and several other counties, oil al-  
most everywhere—thus the dis-  
coveries go on in Texas. We are  
just now beginning to find some  
few of the many valuables which  
exist in grand old Texas.—Wood  
County News.

A large majority of the negroes  
in Texas are republicans, and at  
first thought they are not to be  
blamed, for it is the only party  
that gives them recognition; but a  
second glance shows another side  
of the question: Every negro  
child in the state has the same  
provision made for its education  
that every white child has. Who  
has done this? The democrats.  
Who helps them to build their  
churches and school houses, and  
gives them living work? Demo-  
crats are bound to do the most of  
it. In fact almost everything that  
the negro gets from the state is  
through the democratic party, and  
the amount the entire race pays  
towards supporting the state gov-  
ernment is small.—Wills Point  
Chronicle.

## WASHINGTON NEWS.

Sympathetic Boer Resolution Fall in  
Both Houses of Congress.

Washington, May 8.—At the session  
of the senate yesterday Mr. Teller of  
Colorado, delivered a speech in which  
he strongly urged the senate to extend  
its sympathy to the Boers in their con-  
test with Great Britain. The adoption  
of his resolution of sympathy, he main-  
tained, could not be considered as an  
unfriendly act by the British govern-  
ment.

During the remainder of the session  
the senate had under consideration the  
naval appropriation bill. Notice was  
given that the armor plate provision  
would be considered in secret session, on  
account of certain facts that were to be  
called to the senate's attention.

It was suspension day in the house and  
quite a number of bills were passed. The  
most important was the senate bill to  
amend the general pension laws so as to  
provide for aggregating disabilities under  
the act of 1890 without regard to service  
or origin and to increase the net income  
a widow may have without destroying  
her right to a pension from \$96 to \$250.  
The purpose of the bill is to modify rul-  
ings of the pension office in accordance  
with the recommendations of the Grand  
Army of the Republic. It was passed  
without a dissenting voice.

The bill to increase the appropriation  
for the national guard from \$400,000 to  
\$1,000,000 also was among those passed.  
Mr. Sulzer of New York attempted to  
secure action upon his resolution express-  
ing sympathy with the Boers, but was  
ruled out of order by the speaker.

### Presidential Nominations.

Washington, May 8.—The president  
sent the following nominations to the  
senate:

J. C. McNally of Pennsylvania, sec-  
retary of legation and consul general at  
present at Guatemala City, to be consul  
consul general of the United States at  
that place.

Edward D. Winslow of Illinois to be  
secretary of the legation and consul gen-  
eral of the United States at Stockholm.  
Henry Bordewich of Minnesota to be  
consul general at Christiania.

Benjamin H. Ridgeley of Kentucky  
to be consul at Malaga, Spain.

Everett D. Bailey of Illinois to be con-  
sul at Ensenada, Mex.

First Sergeant O. P. Robinson, For-  
tenth infantry, United States volunteers,  
to be second lieutenant.

First Sergeant T. B. Ellis, Fortieth  
infantry United States volunteers, to be  
second lieutenant.

Second Lieutenant L. S. Cappeller, Thir-  
ty-fifth infantry, United States volun-  
teers, to be first lieutenant.

Thos. J. Senn, to be a lieutenant in  
the navy.

John M. Ott to be postmaster at  
Honolulu, Hawaii.

### FIRE AT ATLANTA.

Furniture Factory and Forty Cottages  
Burn and 300 People Homeless.

Atlanta, May 8.—The factory of the  
Ware Furniture company, one of the  
largest manufacturing plants of its kind  
in the south, located at the end of Mari-  
etta street, just outside of the city limits,  
was burned Monday afternoon. Forty  
cottages occupied by people employed in  
the factory, were destroyed, many of the  
families losing all their effects. Several  
hundred thousand feet of hardwood  
lumber was also burned. William Dick-  
inson, a fireman, was badly burned and  
Thomas Varner was carried from one of  
the burning cottages in an unconscious  
condition. The loss on the factory and  
the cottages will be about \$200,000, with  
insurance about one-half.

It was the most serious fire Atlanta  
has had for years and the entire depart-  
ment was sent out. A high wind was  
blowing and the inflammable nature of  
the buildings made the firemen's task  
almost hopeless from the start. The  
spread of the flames was so rapid at one  
time that one company of firemen were  
compelled to abandon a hosecart to the  
flames and run for their lives.

Three hundred people are homeless  
and without work.

### ASKED TO RESIGN.

Mayor Woodward Requested to Leave  
the Mayor's Seat at Atlanta.

Atlanta, Ga., May 7.—The city coun-  
cil has adopted a resolution calling upon  
Mayor James G. Woodward to resign  
his office. The resolution was the cul-  
mination of a sensational sermon Sun-  
day night by Rev. L. G. Broughton, in  
which the minister made a violent at-  
tack upon the mayor's personal habits.

The resolution calls upon the mayor  
to vacate his office before the next meet-  
ing of the council, two weeks hence.

The leader of the opposition to Mr.  
Woodward says he is in honor bound,  
under the terms of a statement made  
last summer, to resign.

The mayor declines to say what his  
action will be. His term expires Jan. 1  
next.

### Given Five Years.

Greenville, Tex., May 8.—The closing  
of court here was made interesting by  
the granting of new trial to G. L. Stan-  
ley, who was convicted of manslaughter  
two weeks ago and sentenced fifteen  
years in the penitentiary. A jury was  
impaneled and Stanley pleaded guilty,  
upon which the jury gave him a sen-  
tence of five years.

### Katy Flyer Wrecked.

St. Louis May 8.—A washedout trestle  
leading to the Black ridge, three miles  
south of St. Charles, Mo., wrecked the  
Katy Flyer passenger, resulting in the  
death of John Boyle, the fireman, and  
the fatal injury of L. D. Palmer, the  
engineer. None of the passengers were  
injured.

GOING TO WASHINGTON.

Roosevelt Determined Not to Be a Candidate for Vice President.

Washington, May 8.—Politicians are interested in the visit which Governor Roosevelt is about to make here and freely predict that it will have an important bearing on the approaching campaign.

It is well known that many of President McKinley's friends are exceedingly anxious to have the governor for his runningmate this year, but the friends of New York's executive have discouraged anything approaching this plan. It is believed by many that Governor Roosevelt's visit at this time is to present his final arguments to the president in person.

In his recent trip to other states Gov. Roosevelt, it is said, has been quietly informing himself exactly with reference to the Republican situation. Those who are in a position to know assert privately that not for an instant would he hesitate to sacrifice his personal desires if he saw that the Republican party really needed him on the national ticket.

He never has had an idea, however, that he is a necessity to President McKinley's success, or it is believed that he will present proofs to show that his own views are correct.

Information is abroad that Senator Platt has been convinced by Governor Roosevelt's arguments and now believes it will be far better for the Republican party to have him again as its candidate for the head of the ticket in the New York state. The campaign promises to be a fierce one here and without the governor to head the state ticket it is more than hinted that there is a chance for the Democrats, and Senator Hill is already figuring on this with grim satisfaction.

Friends of the governor who have recently been in this city have said that he has completely satisfied himself the fears of some Republicans that President McKinley will need a strong running mate to make his election possible are unwarranted.

It is even said that Governor Roosevelt is ready to produce advance figures to satisfy the doubters of the truth of his own convictions and that it has been arranged that he shall make his demonstration personally to the president and to the president's advisers.

## STORM STRIKE TEXAS

Several Portions of the State Visited by Violent Winds.

### NO LIVES ARE LOST.

In Denton County Tornadoes Wreck Houses and Some Persons Injured—In Southern Part of State Storm Severe.

Denton, Tex., May 8.—Five separate tornadoes passed over sections of Denton county late Sunday evening and that night. All were from the southwest and when observed were passing in an easterly direction. The first place that the wind struck was Justin, in the extreme southwestern corner of the county where in the great storm of 1896, several persons were killed and many more badly wounded.

From Justin the storm seems to have lifted, and the next place heard from where it struck was along Hickory creek, southeast of here. The storm seems to have divided about here, one prong going somewhat further north and striking at Lynchburg and Corinth, both southeast of Denton, and the main prong, which from reports was divided into three different twisters, striking at Garza, south of Corinth.

Still going in a northeasterly direction from Garza, the tornado next struck Little Elm, due east of here, the lesser prong, which seems to have also become divided into two parts near Bolton, disappearing. From Little Elm the currents seem to have risen, as nothing more has been heard from its ravages after it passed that place.

It is a peculiar fact that there were no serious injuries anywhere along the path. Houses, many of them, were completely demolished, others in which persons were living also, were turned over and broken, roofs were blown off, but despite all this the most serious injury received anywhere in the county amounting to only a few cuts about the head and face, which occurred at Little Elm.

#### Many Houses Wrecked.

Paris, Tex., May 8.—The disastrous windstorm which swept through a portion of Lamar county Sunday night including part of the eastern and southern sections of the city in its path did much damage. While there was no loss of life, great havoc was wrought among the orchards, outhouses and fencing and almost entire forests were laid low. Trees were whirled around in every direction, showing that the storm was a regular twister.

At Blossom several houses were unroofed and some blown from foundations.

#### Houses Moved at Boyd.

Boyd, Tex., May 7.—Three dwellings were blown from their foundation here and in addition the Methodist church and the storehouse of Koonce & Boyd were damaged. No one was hurt. The people warned by the approaching cloud had sought shelter in stormhouses. The cyclone seemed to form a few miles to the west and five separate twisters could be seen.

#### Crops Badly Damaged.

Chappell Hill, Tex., May 8.—This vicinity was visited by a heavy wind and rain yesterday morning, with some hail. Crops are much damaged, corn being almost uprooted and blown down. The wind was so strong that many trees were uprooted and several houses blown down.

Trains are crossing the river below here now, but they have to fire up again after running through the water, which is still three feet or more over the track.

#### Severe Around Brenham.

Brenham, Tex., May 8.—While complete reports are not in from all parts of the county, yet it is believed that one of the most destructive cyclones that this county has known for many years came sweeping down from the northwest at 6:30 o'clock Monday morning.

Crops were laid flat and several houses were damaged here.

At Paige a church and several houses were wrecked. Crops are badly injured.

From other towns in southeastern Texas comes similar reports, but no lives are lost as far as known.

#### Recovering from Flood Damages.

Austin, Tex., May 8.—The railroads of the state have about recovered from the damages inflicted by the recent floods. It will take some time to erect permanent bridges, but temporary structures that meet the demand of necessary traffic have been constructed. Large forces of men will be employed for many months constructing new roadbeds and track in the flooded district.

#### For the Choctaw Extension.

Ardmore, I. T., May 8.—A corps of locating engineers of the Choctaw, Oklahoma and Memphis Railway company were in Tishomingo locating the line for the proposed extension of that road from South McAlester to Ardmore. This corps has located the line from Hartshorne, I. T., to Tishomingo, and from the best information the road will cross the Washita near Maunville, I. T.

#### Chief of Police Convention.

Cincinnati, May 8.—The seventh annual convention of Chiefs of Police convened here, with about 300 in attendance.

## HIS FIFTH VISIT!

## "Getting Money From Home"

Is a fine thing, as everyone will agree—the next best thing is keeping it at home. You may think your laundry bill is a small item when you send it away from home, but many small orders sent away make a big hole in the profits of a home enterprise.
